Think green! Go green!

The Green Village

From raw materials to garment disposal, every single stage can possibly leave its adverse footprints on the planet. Indeed, the textile industry is calling for actions and reinventions to push sustainability and circular fashion forward for the betterment of our future. In response to the environmental and ethical issues in the industry, Eurovet presents the Green Village in order to publicize the importance of being "Green", and to showcase "Green", sustainable solutions existing in the market and proposed by the exhibitors.

Young Label Awards

Following its successful debut in Shanghai in 2018, the Young Label Awards is encouraging the up-and-coming young designer labels from Asia Pacific, to dream bigger and to be fearless in telling their visions and stories beyond their horizon. The awards are now open for entries. A selection of candidates from swim, lingerie and activewear category respectively compete to win a free booth at Unique by Mode City.

The Essence – iconic and creative Chinese Brands selected by Eurovet

Over the past years, China has witnessed a significant evolvement from being the world's factory to becoming the fastest developing consumer market in the world. A new consumer era for fashion has emerged, where China is believed to be the focal point stimulated by the growing middle class, digital-native Gen Z, new media and new technologies. Brands that are born in China, more than ever, present a stronger identity, embrace their own culture and open up to a wider and international stage. The Essence curated by Eurovet and their experts, offers an opportunity for Chinese brands to speak their own languages and unique stories.
